OBJECTIVE

Aspiring AI and Full-Stack Developer with experience building AI-powered applications using MERN stack and LLM APIs. Passionate about leveraging technology to solve real-world problems and improve accessibility, education, and public services. Seeking opportunities to develop practical AI solutions while empowering others to adopt emerging technologies.

EDUCATION

University of Lucknow, Lucknow, Uttar Pradesh – **Bachelor of Computer Applications** | **2027**

St. Aloysius College, Pilibhit, Uttar Pradesh – Class 12 (PCM, CBSE) | **75.8%** | **2022**

St. Aloysius College, Pilibhit, Uttar Pradesh – Class 10 (CBSE) | **72.6%** | **2020**

SKILLS

Programming Languages	Java, Python, C, JavaScript
Frontend	React.js, Tailwind CSS, HTML, CSS,
Backend & Database	Node.js, Express.js, MongoDB, MySQL, Firebase Firestore
AI & Developer Tools	Claude AI, Gemini AI, Git, GitHub, Docker, Postman, Render

EXPERIENCE

- Web Development Intern | Infotact Solutions**June 2026 – Present
- Developed real-world web applications using modern web development technologies.
 - Collaborated with a team to design, build, test, and improve project features.
 - Applied Git-based version control and industry-standard development practices throughout the project lifecycle.

- Technical Team Member | Coding Connoisseurs**March 2026 – Present
- Contributed to technical activities and event organization within the coding community.
 - Assisted in building and maintaining web-based projects for club initiatives.
 - Participated in collaborative problem-solving sessions and peer learning activities.

- Frontend Development Intern | CodeAlpha**Aug 2025 – Sep 2025
- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
 - Collaborated with the development team to implement interactive features and improve UI/UX design.
 - Optimized website performance and ensured cross-browser compatibility.

PROJECTS

- FormSahay | Full-Stack Scholarship & Notice Management Platform** ([view on GitHub](#))
- Developed a full-stack AI-powered platform that simplifies government forms and scholarship applications through intelligent notice analysis and eligibility checking.
 - Integrated OCR and AI to extract, analyze, and explain complex government notices while validating required documents.
 - Built REST APIs and a responsive dashboard for secure document management, scheme discovery, and deadline tracking.

- AI Resume Builder (MERN Stack)** ([view on GitHub](#))
- Developed a full-stack AI-powered resume builder using the MERN stack and integrated the Gemini API for AI-generated resume content.
 - Implemented customizable, ATS-friendly resume templates with real-time preview and dynamic content generation.
 - Designed a responsive and intuitive user interface, enabling users to create and export professional resumes efficiently.

- Symbi-City: The Futuristic Smart City (Hackathon Winner)** ([view on GitHub](#))
- Developed a 3D smart city platform with interactive real-world service simulations and immersive user experiences.
 - Implemented a smart pod booking system with real-time availability and destination-based navigation.
 - Designed responsive dark-mode interfaces with modern animations and futuristic UI principles.

CERTIFICATIONS

- AI Fluency Framework & Foundations (2026)** ([view](#))
- Claude Code in Action (2026)** ([view](#))
- Claude code 101 (2026)** ([view](#))
